

April 5, 2006

Dear Sirs:

Please DO NOT let Wal-Mart take an even larger share of the economy over. It will apparently happen with little controls and they "loop-holed" in. This is scary. They have already ruined many good businesses, bankrupted Vlassic Pickle, ran all the flavor out of most of the country, strong-armed many manufacturers, stolen health care from their workers and shouldered the American public with that cost and oh so much more.
DO not let them have this too.

They will further ruin this great country. They are a scourge.
They are villians. They are NOT healthy for our economy or our country.

Please see through the smoke and mirrors and stop them from stealing another piece of pie.
thanks for listening-

Bryan Holland
